

Composite Decking

High Performance & Real Wood Looks

Innovating beyond traditional composite decking, our composite boards are engineered with highly realistic wood looks and superior moisture resistance thanks to proprietary capping technology. Plus, with a range of colors, textures, and price points, these boards will suit any client's style or budget.

- Wood and resin composite core protected by a polymer cap that extends into the grooves of grooved boards
- Extremely low maintenance: Never requires sanding, sealing, or staining
- Highly resistant to mold, mildew, and rot damage — boards won't splinter, crack, or warp
- Premium fade resistance, proven in third-party weathering testing — backed by 30- and 25-Year Fade & Stain Warranties
- Made from approximately 80% recycled material, including plastics like milk jugs and bags, as well as 100% reclaimed wood fibers, making it a sustainable alternative to wood. No trees are felled for this product.

TimberTech Prime+, Prime, and Premier Collections are covered by a 25-Year Limited Product Warranty and a 25-Year Fade & Stain Limited Warranty.

The proprietary capping on the Prime+, Prime, and Premier Collections does not feature Mold Guard Technology.

CHESTNUT™

DRIFTWOOD

TERRAIN COLLECTION® *Rugged Cathedral Grain*

Embrace a timeless, authentic wood look with the Terrain Collection. Color options include varied coloring for a natural wood look or solid coloring for a stained wood look. With a scalloped profile, these boards are lighter in weight for easier installation — without sacrificing a solid underfoot feel.
